Dear Students,

Looking for something different this summer?

2025 Summer College is offering **43 carefully curated general education courses** across **27 universities throughout Taiwan** that not only help you earn credits but also broaden your horizons.

National Taitung University presents a special Tribal Study Tour Series, inviting you to step into Indigenous communities, stay in Taitung, and immerse yourself in authentic Austronesian cultures. In "Introduction to Austronesian Cultures" you'll visit the Puyuma tribe; while "Indigenous tribe learning and experience" takes you deep into the world of the Tao and Paiwan tribes on Lanyu Island. Accommodation at National Taitung University is available for enrolled students.

"Disaster Risk Management" course includes disaster prevention specialist training in collaboration with Tzu Chi Foundation. You'll simulate disaster scenarios, learn to respond with calm, and get hands-on experience assembling Tzu Chi's foldable beds and partitions—equipping you with essential emergency sheltering techniques. This course will challenge your understanding of disaster preparedness and boost your survival chances during real emergencies.

Three of the courses are conducted entirely in English: Application and Health Function of Spices and Herbs (distance learning, synchronous), Fundamentals of English Writing (in-person instruction), and General Psychology (in-person instruction).

Taking a course isn't just about earning credits—it's about becoming stronger in the real world. The first course selection phase offers the most available seats. Don't miss out—check out the courses and join us in exploring the endless possibilities of learning!
