【2026 Summer College Is Now Open! 34 Exciting General Education Courses Await You!】

Dear Students,

If one summer could allow you to—

-  Explore the vast universe
-  Immerse yourself in the world of film and music
-  Engage in discussions on human rights and social issues
-  Learn data analysis and programming

Would you like to give it a try?

2026 Summer College brings together 34 carefully selected general education courses offered by 20 universities across Taiwan.

It is not just about earning credits—it is an opportunity to broaden your horizons and explore new possibilities in learning.

Local Culture × Experiential Learning

Course: Indigenous Tribe Learning and Experience, Environmental Study I: Human, Environment, & Nature

Step outside the classroom and bring learning into the real world.

Through Indigenous community courses, you will gain firsthand experience of local cultures and lifestyles. Environmental studies courses will take you through the mountains and hidden paths of Taiwan, exploring the relationship between humans and nature.

Psychology × Life × Self-Exploration

Course: General Psychology, Cinema of mental health, Medicine and Life

Do you truly understand yourself?

From psychology to emotional and health-related topics in daily life, these courses help you explore human behavior and the inner world. In a fast-paced life, learning to understand yourself and others is one of the most valuable skills you can develop.

Practical Applications × Public Thinking

Course: Disaster Risk Management, Philosophy and Public Affairs, Multicultural and Social Justice, Practice and Promotion of Morality and Communication Education, International Relations—A Lens through the Pulitzer Prizes, States and Markets, Public Historical Case Studies Of Human Rights Disputes

Disaster Risk Management course integrates disaster prevention training through simulations and hands-on exercises, helping you develop essential response skills and decision-making abilities in times of crisis.

By combining courses in law, human rights, psychology, and medicine, you will gain a multidimensional understanding of social issues and build the ability to navigate an uncertain world.

Taking courses is not only about earning credits—it is about building a stronger foundation to stand firm in the real world.

The first phase offers the largest number of course slots.

Explore the available courses now and join us in discovering the limitless possibilities of learning!

Course Registration Period

Phase 1 (Allocation System): April 29 (Wed) 10:00 AM – May 6 (Wed) 10:00 AM

Phase 2 (First-Come, First-Served): Starting May 18 (Wed) 10:00 AM (until two weeks before each course begins)
